Prevent Injuries

Remove Your Jewelry
INTRODUCTION & IMPORTANCE
Jewelry includes watches, wedding rings, bracelets, necklaces, body piercings and facial jewelry.
Jewelry at work is a major safety hazard and can cause serious injuries.
Jewelry can get caught in power tools or stuck against objects, conveyors, and moving parts of machinery.

CONSEQUENCES
Wearing jewelry at work could result in:
• torn earlobes
• injured fingers, hands, wrists, neck
• amputated fingers or limbs
• electric shock
• lost-time from work
• the need for medical care

PROCEDURE/ PRACTICE
Remove all jewelry and store it or do not bring it to work.

APPLICATION OR FOLLOW-UP
Continue training with other Policy & Work Rules posters.

SUMMARY
Do not wear jewelry when you work with power tools and machinery.
Accidents and injuries are harmful and could be life threatening to you and your co-workers.

NOTE
Caught jewelry can drag you into machinery. You could lose your fingers, hands, arms or even your life if your jewelry gets caught.

ASK
Do you know anyone who has been injured at work from wearing jewelry?
MULTIPLE ALLERGIES

Workplace Jewellery Holders come decorated on the FRONT side with the choice of six Safety First messages.
