

LECLASP™ GREETING LEAFLETS FORM

Free personalized Greeting Leaflets are offered with the *LeClasp™ Key Holder*. You can choose the STANDARD "Compliments of" tag line; select from the **15 popular Greetings** shown below or you can **compose your own (#16) salutation**. The instruction sheet with your personalized message tagged to the bottom will be tucked in the packaging.

How to use your Multi-Functional LeClasp™

The end to your typical «key holder» **FRUSTRATIONS** is finally here!

The patented *Multi-Functional LeClasp™* incorporates an ingenious «multi-ring» design that allows you to add or remove **keys instantly!**

As Simple As 1-2-3! (see above diagram)

1. Place thumb and index finger on the diagonal lines at the center of your *LeClasp™*.

2. Squeeze.

3. Add or remove keys at will.

For added convenience, we have equipped *LeClasp™* with four split rings that let you **GROUP** keys into «sets» of 2-6 keys per ring. For example, dedicate one ring to your house keys, another to your work keys, car keys, etc. **IMPORTANT:** The modular design allows you to add up to nine additional «sets» of keys.

You can also use *LeClasp™* to keep valuable **jewellery** from being lost while working or exercising. It's perfect for anyone who needs to remove **rings** (precious, irreplaceable wedding ring!), **bracelets**, **necklaces**, and even **earrings** occasionally or daily. With a simple *LeClasp™* squeeze **jewellery** and **keys** are kept safe and secure — **together** in a pocket or locker!

As well, *LeClasp™* easily converts into a handclasp self-defense device! Peace of mind while jogging or the Saturday night «march» through dark parking lots. (Visit our website www.leclasp.com for detailed instructions.)

Wow... No ordinary benefits here!! We hope the efficiency and simplicity of our truly practical «jewellery-calibre» gift will pleasantly surprise and delight you for many, many years to come. You'll soon wonder how you survived without it.
