STANDARD

How to use your Multi-Functional LeClasp™.

The end to your typical «key holder» frustrations is finally here!

The patented *Multi-Functional LeClasp™* incorporates an ingenious «multi-ring» design that allows you to add or remove **keys instantly!**

As Simple As 1-2-3! (see above diagram)

1. Place thumb and index finger on the diagonal lines at the center of your *LeClasp™*.

2. Squeeze.

3. Add or remove keys at will.

For added convenience, we have equipped *LeClasp™* with four split rings that let you **GROUP** keys into «sets» of 2-6 keys per ring. For example, dedicate one ring to your house keys, another to your work keys, car keys, etc. **IMPORTANT:** The modular design allows you to add up to nine additional «sets» of keys.

You can also use *LeClasp™* to keep valuable **jewellery** from being **lost** while **working** or **exercising**. It's perfect for anyone who needs to remove **rings** (precious, irreplaceable wedding ring!), **bracelets**, **necklaces**, and even **earrings** occasionally or daily. With a simple *LeClasp™* squeeze **jewellery** and **keys** are kept safe and secure — **together** in a **pocket** or **locker!**

As well, *LeClasp™* easily converts into a handclasp self-defense device! Peace of mind while jogging or the Saturday night «march» through dark parking lots. (Visit our website www.leclasp.com for more detailed instructions.)

Wow... No ordinary benefits here!! We hope the efficiency and simplicity of our truly **practical** «jewellery-calibre» gift will pleasantly surprise and delight you for many, many years to come. You'll soon wonder how you survived without it.
